SUMMARY

Passionate about Quality in its broadest meaning. I enjoy participating in the complete life cycle of a project being in contact with all roles involved making them part of the quality strategy. Risk analysis. Design, creation and implementation of automation solutions... And much more!

SKILLS

- Test Automation
- API Testing
- Quality Strategies
- Programming Languages: TypeScript, Javascript, Python...
- Automation tools: Cypress, Playwright, Pytest, WebdriverIO...
- Project Management
- Tools Customization
- Agile Development Methodologies
- Requirements Gathering
- CI/CD: Buildkite, CircleCI, Jenkins...
- Strong knowledge of Atlassian stack: Jira, Confluence, Trello

EXPERIENCE

SDET, DEVELOPER PRODUCTIVITY, 04/2021 - Current

Affirm

- Quality advocate across all teams implementing testing processes and strategies.
- Create automation solutions at different layers and with various tools and languages: TypeScript, JavaScript, Python, Cypress, WebDriverIO, Playwright, Pytest...
- Developer Productivity: Working on the migration and optimization of the framework in charge of unit testing.
- Designing and building internal libraries to help developers create their own tests easier and faster.
- Contributing to the review of unit and integration tests together with the developers.
- Maintenance and improvement of CI/CD processes using Buildkite.
- Documented technical specifications and project testing methods for future reference.

QA AUTOMATION ENGINEER | SDET, 01/2018 - 04/2021

Packlink, Spain

- Create automation solutions from scratch: End-To-End, Backend and API tests.
- Involved in multidisciplinary teams providing a quality assurance point of view from the earliest stages of the project.
- Design and execution of comprehensive test plans.

- Leading the migration from an old platform and helping in the creation and design of new unit and integration tests.

EDUCATION AND TRAINING

Test Automation University, Madrid, Spain, 01/2023
Python Path (Python, Pytest...)

ISTQB Foundation Level, Madrid, Spain, 01/2021
Software Quality

Test Automation University, Madrid, Spain, 01/2020
JS Path (JavaScript, TypeScript, Cypress, CodeceptJS, Nightwatch))

ACTIVITIES AND HONORS

One of the proud creators of a website that, during the pandemic, relieved hospitals in Spain by providing basic online consultations with volunteer doctors and psychologists.
